Virtual careers fairs notified to students/parents and carers by FROG message.					
Winston Extra - Years 7-9	<p>All students work on the following four key areas. In addition to learning and reflecting on themselves, students learn about the labour market by looking at different careers and how their skills relate to these. They work on the Winston competencies through teamwork and problem solving.</p> <p>Who you are - challenging students to discover their true self through their identity, values and sense of belonging.</p> <p>Pathways out - Being aware of the things we can do when you can't think clearly, or circumstances make decisions hard. Challenging the status quo through the action we take.</p> <p>Talking and writing about yourself - Turning self awareness into words.</p> <p>Living wellbeing - practically balancing your potential, productivity, creativity, relationships and place in the community.</p>				
Carousel - Year 10				<p>All Aspire students concentrate on the Winston competencies of Communication, Collaboration, Resilience, Analysis, Ingenuity</p> <p>They reflect on themselves both verbally and in writing and create a personal statement with practical examples of their skills and competencies.</p>	
Careers in the curriculum	All subject areas link curriculum learning to careers through highlighting the relevance of subjects for a range of career paths and self development through the Winston Competencies. The importance of English and Maths is emphasised.				
National Careers Week (March)	Tutor time activities, including virtual encounters with employers, further education and apprenticeships	Tutor time activities, including virtual encounters with employers, further education and apprenticeships	<p>Employer presentations, lunchtime stands and activities.</p> <p>Woking College presentation to year group.</p> <p>Tutor time activities, including encounters with employers, further education and apprenticeships</p>	<p>Employer presentations, lunchtime stands and activities.</p> <p>Tutor time activities, including encounters with employers, further education and apprenticeships</p>	Tutor time activities, including virtual encounters with employers, further education and apprenticeships
